

## Learn How to Coach Kids

*Transform the lives of students with the innovative Goal Mapping Coaching System – designed to define pupil aspirations and help raise achievement for students from Years 9 – 13.*

**Goal Mapping is a tool that motivates individuals to activate the inner ‘genie’, the subconscious, in order to make dreams and aspirations a powerful reality. Described as a universal tool of attainment, Goal Mapping is a life-changing technique that has proven results in helping people set and achieve the goals they want. Now this potent tool is available to education establishments, and our half-day course will show teachers and other professionals how to become Goal Mapping practitioners and champions within their schools.**

### Aims and Objectives

This course will empower teachers so that they run Goal Mapping programmes within their schools to different groups of students. It shows them how to learn and master the Goal Mapping process, how to motivate and inspire their students to dream big, and how to use the Goal Mapping templates to activate the inner genie so that aspirations can be met and realised. Teachers will be able to run the various Goal Mapping programmes to different cohorts of students – from those who are making the transition to GCSE, Sixth Form, University, Gifted and Talented, Employment or Further Education.

### Advantages and Benefits

- Helps teachers show students how to create a powerful vision for future success
- Shows teachers how to learn and master the Goal Mapping course so they can teach their students how to Goal Map for a variety of life-changing reasons
- Empowers teachers to demonstrate life-long skills to promote attainment
- Demonstrates how teachers can become Goal Mapping champions within their schools, thus allowing them to run Goal Mapping courses as often as they see fit.
- This course will allow teachers to run the following Goal Mapping programmes in their schools:
  - Goal Mapping for Transition
  - Goal Mapping for Exam Success
  - Goal Mapping for Higher Education or Employment

### Who would benefit by attending?

- Teachers who wish to become Goal Mapping champions in their school, running Goal Mapping courses
- PSHE teachers who wish to show students ways to aspire higher, cope with transition, or to see exams as stepping stones to further achievement
- Home tutors, Life Coaches or Trainers who want to increase their repertoire of techniques and skill sets
- Lead Learners, Heads of Year
- Extended Schools services co-ordinators

### Course Overview

#### Session One (2 hours)
